

Members of the Commission:

I operate amateur station N4KFT. In the interest of brevity, I request that you DENY Dr. Trahos' petition. Many other amateur operators have already stated the reasons you should DENY the petition; all of the reason with which I concur.

Frankly, I cannot believe that a licensed U.S. amateur operator would make such a proposterous suggestion, apart from the fact that we are living in a "post 9/11 world."

Respectfully submitted,

John P. Slater, Jr.
N4KFT
